Final steps

- Work in all the revisions (bullet point list and red font in diss)
- Have all committee members sign title page while I'm doing the revisions
 - Betty has signed
 - Next up is Mike
- Send Jeff the bullet point list, the diss (with red font parts), and the signed title page with all other signatures for him to sign
- Forward page with all committee signatures to Bob
- Bob contacts Vicky for her signature
- Bob sends copy with all signatures (including Vicky's) to Registrar to confirm completion
- Bob also sends copy to me
- Include copy once with all signatures in my final submission (i.e. not twice as in the template, just once)
- (Grade is missing for spring 21, which Jeff will submit this semester)
- (Grade is missing for Fall 2018, Govt 096. 002, which was an audit with Ryan. There needs to be a grade here (which for an audit is "L"). Bob contacted Ryan about this)

Before final submission for aesthetics

- When I have worked in all revisions and when Jeff has signed off on them, remove red font in .Rmd
- Then fix any gaps manually in the .tex:
 - Copy the thesis folder to the Desktop
 - In authesis.cls
 - * Change `sources/authesis` to `../sources/authesis`
 - * Change `sources/au` to `../sources/au`
 - In dissertation.tex:
 - * Change `sources/authesis` to `../sources/authesis`
 - * Change `dissertation_files/` to `../bookdown_files/dissertation_files/`
 - * Change `figures/` to `../figures/`
 - * Change `data/` to `../data/`
 - * Wherever there is a big gap, add `\\` to the end of the line before the gap, remove any empty following lines, add `\indent` to the beginning of the line after the gap
